ENGINEERING AND TECHNOLOGY ENROLLMENTS FALL 1981

PART II

Technology Enrollments By School And By Curriculum
For All Students Including A Breakdown By Women,
Minorities And Foreign Nationals

A Report of An Annual Survey
conducted by the
ENGINEERING MANPOWER COMMISSION

A Commission of the Engineering Affairs Council
of the
American Association of Engineering Societies, Inc.
345 East 47th Street
New York, New York 10017

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

The American Association of Engineering Societies (AAES) is a national federation of 43 organizations representing nearly one million engineers.

As a central coordinating organization, AAES focuses the resources of the engineering societies on technological issues of national and international importance.

1982 OFFICERS

Irvan F. Mendenhall
Chairman

Robert M. Saunders
Chairman-Elect

Nicholas J. Radell
Secretary/Treasurer

H. Arthur Nedom
Past-Chairman

Eugene Zwoyer
President

ENGINEERING AFFAIRS COUNCIL

The Engineering Affairs Council is responsible for matters concerned with the practice of engineering in the public interest. The Council encourages voluntary exchanges of information, coordination of goals and joint action.

1982 OFFICERS

James F. Shivler, Jr.
Chairman

William E. Carew
Vice-Chairman

Donald G. Weinert
Secretary/Treasurer

THE ENGINEERING MANPOWER COMMISSION
# of the
AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

The Engineering Manpower Commission was organized in 1950 to serve as a focus for national technological manpower issues.

The Commission's program is carried out through the collection, analysis, and publication of significant data on engineering manpower, as well as the development of programs and policies designed to acquaint the public with the importance of engineering to the national welfare.

The Engineering Manpower Commission is charged with the following responsibility:

> *"To engage in studies and analyses of the supply, demand, and utilization of engineering and technical manpower; to make recommendations, conduct programs, and develop reports concerning these aspects of engineering and technical manpower; and to carry on such other programs in the field of manpower as may be authorized by the Engineering Affairs Council of AAES."*

1982
EMC OFFICERS AND STAFF

Paul Doigan
Chairman

Dorothy Morris
Vice-Chairman

Paul B. Wood
Vice-Chairman

Luke H. Noggle
Chairman, Surveys of Committee

Francis W. Stacey
Chairman, Enrollment Survey

Patrick J. Sheridan
Manager, Manpower Activities

Judith A. McCormick
Assistant Manager

Carolyn J. Heydt
Manpower Statistician

ACKNOWLEDGEMENTS

The Engineering Manpower Commission is grateful for the invaluable assistance of Mark V. Swankoski and associates of E.I. duPont de Nemours and Company for processing the data for this survey. We appreciate the cooperation of the hundreds of deans and college officials who provided the data on which this report is based. This survey was conducted by the EMC staff under the direction of Dr. Francis W. Stacey, Chairman of the Enrollment Survey, and with the consultation of Donald E. Irwin.

INTRODUCTION

Since 1967, the Engineering Manpower Commission has conducted annual studies of enginering and technology enrollments in order to provide timely and accurate educational data. This publication is the fourteenth in that series and reflects enrollments as of the fall of 1981.

This report is divided into two parts and presents data for all students enrolled in engineering and technology (which includes engineering technology and industrial technology) programs by curriculum and school. Summaries of student enrollment in ABET-accredited programs are shown. Undergraduate students are reported by class and graduate students by degree level. Data is presented for all students combined, as well as for women, Black, Hispanic, American Indian, Asian/Pacific, and foreign national students. It should be noted that Part I deals exclusively with engineering enrollments and Part II with technology enrollments.

Part I contains detailed engineering enrollment data by school for all students, Black, Hispanic, American Indian, Asian/Pacific, and foreign national students. It also contains detailed data by curriculum for all students combined, women, Black, Hispanic, American Indian, Asian/Pacific, and foreign national students, as well as summary curriculum data, combined for all schools, for each of the above groups of students.

Part II contains detailed technology enrollment data by school for all students, women, Black, Hispanic, American Indian, and Asian/Pacific students, as well as summary curriculum data, combined for all schools, for each of the above groups of students.

Although every attempt has been made to eliminate errors in reporting the statistics, some discrepancies may appear. In several cases, inconsistencies in the data submitted have been corrected, or related curricula grouped under a common title so that this report would be manageable in size. Any questions regarding the course content of a specific program should be directed to the reporting institution. Users of this report are advised to read the explanatory material before using the data tables provided herein.

THE 1981 TECHNOLOGY ENROLLMENT SURVEY

This year's report includes data from technical institutions on their enrollments as of fall, 1981. While the statistics reported here represent the majority of students in two and four-year technology programs, they are not the total technology enrollments in the United States. Some schools surveyed did not reply to the survey questionnaire and are not included in the report.

Every effort is made to obtain data from all schools having at least one technology program accredited by the Accreditation Board for Engineering and Technology (ABET). For purposes of recording accreditation status the information was obtained from the ABET 1980 report.

ESTIMATED DATA

Information was not received from the following accredited technology schools at the time of publication. In order to present reasonably comparable data to previous reports, information from previous years has been substituted for these institutions:

Capitol Institute of Technology
Delta College
Hudson Valley Community College
Kansas Technical Institute
Kent State Univ., Tuscarawas Campus
State Technical Inst. at Knoxville
Missouri Institute of Technology
New Hampshire Technical Institute
Nassau Community College
Northeastern University
Northrop University
Roger William College
Sumter Area Technical College
SUNY Agric. & Tech. College, Farmingdale
SUNY Agric. & Tech College, Morrisville
Trident Technical College

In a few cases, schools estimated their minority data or data for particular programs. In such cases, estimates are indicated by an asterisk (*) in the appropriate column.

In some instances where schools submitted reports which were only partially complete, judgement was used to distribute the data as necessary, with the consultation of the schools.

It is still difficult to distinguish some engineering technology programs from those in industrial technology without going into a detailed evaluation of each program. Schools themselves may be unclear as to the distinction. Therefore, curricula were grouped according to basic technical fields, i.e., chemical, electronics, etc.

Technology programs that are unrelated to engineering, i.e., business, nursing and those of less than two-year's duration were excluded from the report. The data are reported as submitted by the schools; estimates were made only to the extent necessary to put the data into the standard format. In some instances, pro-rating totals into the appropriate school years or curricula, or reconciling numerical inconsistencies was required.

DATA TABLES

The following data tables are presented for students enrolled in technology programs:

(1) Enrollments for all curricula combined for each school arranged by class and degree level for associate, pre-engineering and bachelor programs. Detail data for all students combined, women, Black, Hispanic, American Indian, and Asian/Pacific students are reported.

(2) Enrollments for each curriculum by school arranged by class or degree level for associate, pre-engineering and bachelor programs. Detailed data and summaries for women, Black, Hispanic, American Indian, and Asian/Pacific students are reported in Part II together with additional summary data for these special populations combined.

It should be noted that all part-time students at the associate or pre-engineering levels are reported together, and all part-time bachelor degree students are reported as totals without regard to class year.

Pre-engineering (the first two years of a four-year program) is listed as a separate curriculum without breakdown of technical specialty. This is because previous surveys have indicated that most of these programs are general in nature, although many students are undoubtedly oriented toward a particular technical field. Most associate degree programs are designed to be terminal in nature, but many graduates continue on to a higher degree. Similarly, many students who complete the first two years of engineering transfer programs never enroll in engineering schools.

Accreditation and Control Identification (AC). Schools have been assigned a two-digit code to indicate accreditation and public or private control.

The first digit (1-6) indicates accreditation as follows:

1 = At least one engineering curriculum accredited by ABET (1980 list). Used only in the engineering tables.
2 = At least one technology curriculum accredited by ABET (1980 list). Used only in the technology tables.
4 = Accredited by regional accrediting commission (1980-81 list).
5 = Accredited by National Association of Trade & Technical Schools (NATTS, 1980-81 list).
6 = None of the above.

The second digit (1-5) indicates control as follows:

1 = Public - state or local government control
2 = Public - federal government control
3 = Private - non-profit, non-sectarian
4 = Private - religious
5 = Private - proprietary

For the purposes of recording accreditation status, information was obtained from the Accreditation Board for Engineering & Technology (ABET) 1980 report. "A" denotes associate degree, and "B" refers to bachelor's.

TECHNOLOGY CURRICULUM

Data have been consolidated into 21 curriculum groups as shown here:

AERONAUTICAL
AIRCONDITIONING
ARCHITECTURAL
AUTOMOTIVE
CHEMICAL
CIVIL
COMPUTER
CONSTRUCTION
DRAFTING & DESIGN
ELECTRICAL
ELECTROMECHANICAL
ELECTRONIC
ENGINEERING SCIENCE
GENERAL
INDUSTRIAL, MANFACTURING
MARINE
MATERIALS
MECHANICAL
MINING, METALLURGICAL, WELDING
NUCLEAR
OTHER

Although titles may be the same, the combinations are not the same as for engineering enrollments. The curriculum title used by individual schools may differ from the group heading. The title as reported is shown in the detailed reports for each curriculum group.

HISTORICAL SUMMARY
ENGINEERING TECHLOGOGY PROGRAMS ACCREDITED BY ABET[1]

Engineering Technology Students	Fall 1971	Fall 1972	Fall 1973	Fall 1974	Fall 1975	Fall 1976	Fall 1977	Fall 1978	Fall 1979	Fall 1980	Fall 1981
First Year, Full-Time*	20,968	22,867	22,412	23,348	27,315	28,384	31,558	30,757	18,102	22,127	21,483
Second Year, Full-Time*	14,013	13,678	13,546	13,232	15,945	18,235	19,566	18,254	10,985	13,302	14,434
Other Full-Time Associate Degree Students	1,305	896	491	1,029	811	896	928	515	455	784	541
Bachelor of Engineering Technology Students, Third and Later Years, Full-Time	6,513	5,129	6,526	6,868	9,121	10,487	12,490	13,063	8,805	11,542	12,389
TOTAL FULL-TIME STUDENTS	42,799	42,570	42,975	44,477	53,192	58,002	64,542	62,589	38,347	47,755	48,847
TOTAL PART-TIME STUDENTS	13,165	13,285	12,506	14,180	21,476	19,429	14,079	16,949	15,271	17,395	16,639
Number of Schools**	75	84	91	96	112	119	135	133	150	166	161

[1] Data up to and including 1978 represent all enrollments in schools with at least one technology curricula accredited by the Accreditation Board for Engineering and Technology at the time of the survey. Data for 1979, which first used the new format, identify enrollments in technology programs accredited by ABET.

* Includes students in both associate and bachelors' degree programs for these years.

** Schools with at least one curricula accredited by ABET. The Pennsylvania State University Commonwealth Campuses are counted as one institution.

NOTE: All of the above statistics should be considered approximate because of factors explained in the text.
